

## FREQUENTLY ASKED QUESTIONS

### *Who is M. Davis & Sons and what do you do?*

We are a \$50 million, fifth generation, woman-owned industrial construction company that builds, installs and maintains corporate plants and facilities for national and international companies, with expertise in mechanical, electrical, boilers, fabrication and instrumentation services.

### *What services do you provide?*

We do welding, plumbing, pipefitting, millwrighting, rigging, boiler maintenance, electrical, and instrumentation and controls. We have in-house fabrication facilities for working with ferrous and non-ferrous metals and modular skids. Our ASME Code Shop offers design, testing, welding and inspection for customers that require an exacting level of workmanship.

### *What kind of projects do you handle?*

M. Davis is small enough to handle a \$1,000 job and large enough to handle a \$17 million job. Working across industries, we are credentialed and committed to upholding the safety and construction standards from the dirtiest water treatment plant to the most pristine pharmaceutical lab.

### *What vertical markets do you serve?*

We work with the pharmaceutical, oil and gas, energy, food and beverage and chemical industries. Our clients are Fortune 500 companies and government entities.

### *Where are you located?*

We are headquartered in Wilmington, Del., with a satellite office in White Marsh, Md. Our three fabrication facilities are also located in Wilmington and Newark, Del.

We have worked on projects locally, nationally and our products have been shipped around the world to locations such as Africa, New Zealand, Russia and Brazil.
