

**GOVERNMENT MARKET:
UNITED STATES NAVY**

-

**ELECTRICAL POWER DISTRIBUTION
EQUIPMENT MANUFACTURED**

VTi by M. Davis is an in-house brand under M. Davis & Sons, Inc. VTi by M. Davis manufactures electrical power distribution equipment for many types of industries including the United States Navy. In particular, the "PPDC" or Portable Power Distribution Center, is a low-voltage piece of equipment that is portable, and eliminates the need for switch-rack construction on the job site. In the case for the United States Navy, the PPDC provides sure power to submarines undergoing maintenance when they idle the nuclear reactor.

**SHIPPED WITHIN THE UNITED
STATES AND ABROAD**

Under the M. Davis & Sons brand, VTi by M. Davis, power distribution equipment has been have successfully manufactured and shipped within the 50 states and as well as abroad.

**M. DAVIS SOLUTIONS
MANUFACTURED IN-HOUSE**

The PPC is built to provide low-cost distribution and eliminates expensive and time-consuming switch-rack construction on the site. When the project is completed simply moving the PPDC to the next job and it can be up and running immediately.
