M. Davis New Offices & Fabrication Shop

# KENNETT SQUARE, WE ARRIVED

## A Message from the M. Davis Executive Leadership Team

In September, M. Davis & Sons relocated three facilities from Wilmington DE to one larger location at 227 Daylesford Court, Kennett Square, PA.

With fabrication services continuing to grow, M. Davis started looking for a space that would not only accommodate the current volume and demand, but allow for growth and greater efficiency. The Kennett Square checked off all the items on the “wish list.”

With the consolidation of facilities and additional square footage the new space provides, M. Davis is implementing new, efficient workflows to help produce fabrications more quickly. The ability to increase production in the fabrication shop at Kennett, which includes the ASME Code team and fabrication specialists, means M. Davis & Sons brings even more value to our customers in the local surrounding areas as well as globally.

Because of the new facility and property we own, we will be ready for future expansion," states John Gooden, President & COO.

M. Davis continues to be headquartered in Delaware with additional facilities in Newark, DE and Havre de Grace, MD.

A virtual tour is coming soon, so be on the lookout for a future eblast! ■

# M. DAVIS AWARDED DIAMOND FOR SAFETY

M. Davis has received the “Diamond” level for Safety STEP award from ABC chapters in Delaware, Chesapeake Shores, and Baltimore. The M. Davis safety culture runs strong through every team member in the field and office. "Safety is My Responsibility" is a motto every team member knows well. Our Safety Director, Scott Cudmore, with his team in the Safety Department, works diligently to keep our staff trained and sites running smoothly. Vice President of Risk Management Todd Moran stated, “We are excited to be recognized for our commitment to safety. It will always be a top priority.” ■

# PRO PATRIA AWARDED

On September 1, 2022, John C. Gooden received the Pro Patria Award, presented annually by Employer Support of the Guard and Reserve (ESGR). The ESGR is a Dept. of Defense office established in 1972 to promote cooperation and understanding between Reserve Component service members and civilian employers.

ESGR awarded Pro Patria to M. Davis & Sons and John Gooden for demonstrating support to the Guard and Reserve through leadership and practices, including adopting policies that make it easier for employees to participate in the National Guard and Reserve. This is the highest-level award that may be bestowed by an ESGR State Committee. ■

# SERVICE SPOTLIGHT: MEP

Mechanical. Electrical. Plumbing.

In the world of construction, MEP is a considerable part of building systems.

To our customers, finding three different contractors to manage and execute the Mechanical, Electrical, and Plumbing work for their construction projects can be a bear.

From communication to work orders to change orders, job walk-throughs, and audits, handling three or more contractors means the client's focus is spread thin.

Fortunately, the experts at M. Davis & Sons have decades of experience handling MEP projects and leading them to success. We offer a centralized source for MEP, which keeps every project stage running smoothly with higher efficiencies and clear communication. M. Davis's safety standards also mean the client can rest assured they are in qualified, trained hands.

The M. Davis engineering team offers design assistance and 3D models for the estimates to be on point.

Clients that utilize the "one source for all" services of M. Davis & Sons enjoy their MEP projects coming in on time and handled with compliance and quality workmanship.

# WE MAKE THAT:

## PORTABLE POWER DISTRIBUTION CENTERS

Crafted and Refurbished, Yes We Do!

M. Davis & Sons offers power distribution equipment such as Portal Power Distribution Centers (or PPDC). The PPDC provides a unique, helpful solution to temporary power problems or fast turnaround situations in plants and on construction projects.

The PPDC is UL-Listed and NEMA rated. Since it is reusable and portable, it can be moved from site to site easily.

Already have a PPDC that needs refurbishing? We can do that! Our customers can rely on our experts at VTi by M Davis to handle full refurbishments to any previously purchased PPDCs they previously purchased. Rather than spending money to buy new units, we offer the flexibility for restoration. Weather damage and broken parts are all repaired and renovated to get the unit running.

Whether a complete disassembly or rebuild, our electrical experts will use their quality control checklist to review the work needed for each unit to get it functional again.

Every PPDC is designed for safety and durability, and refurbishing a sustainable solution that will keep it running even longer. Reach out to the M. Davis & Sons Sales team to get started! ■

# IN THE COMMUNITY

---

M. Davis & Sons is gearing up to celebrate Manufacturing Day in the USA. On October 7, 2022, M. Davis and thousands of other businesses nationwide will open their doors in person or virtually for tours and events. The Manufacturing Day celebration shows the reality of modern-day manufacturing careers.

Offering shop tours is one way M. Davis engages with students, school instructors, and administrators to show how working in manufacturing leads to careers that pay well.

Manufacturing Day is an initiative of the Manufacturing Institute with the Fabrication & Manufacturers Association.

# Remembering Helen B. Davis

On August 6, 2022, the M. Davis & Sons team said farewell to Helen “Snoo” Davis, wife of Charles R. Davis, Chairman of M. Davis & Sons.

Helen was a remarkable woman. She married Charles in 1958 and worked with him in the early years of M. Davis handling the payroll and bookkeeping. She is mother to Peggy (Davis) Del Fabbro, CEO of M. Davis.

Always smiling and kind to everyone she met, she will be greatly missed. ■

Helen "Snoo" Davis, Peggy (Davis) Dell Fabbro (CEO), and Charles Davis (Chairman)
