

INDUSTRIAL CONSTRUCTION,  
FABRICATION AND MAINTENANCE

## FROM SHEET METAL & STRUCTURAL STEEL TO PRODUCTION EQUIPMENT **FABRICATION**

At M. Davis, we'll design, fabricate, test, and install your high-quality vessels and assemblies for FDA-regulated and industrial plants. We have four fabrication facilities with over 60,000 square feet of space in a controlled environment, which is especially important for our pharmaceutical, technology and food & beverage customers.

M. Davis delivers:

- Process fabrication and installation, with minimum disruption to your operation.
- Custom configurations or specifications for vessels or equipment.

### **STRUCTURAL STEEL**

- Equipment platforms, plant towers, mezzanines, building skeletons
- Handrails, stairways, crossovers

### **ASME/API PIPING & VESSELS**

Whether you need ASME vessel fabrication or an API weld, our designers will create the plans and our piping and vessel specialists will render them with precision.

### **SHEET METAL AND MISCELLANEOUS FABRICATION**

- R&D test equipment
- Design and field layout
- OSHA-compliant guards
- Bins and hoppers
- Boiler breaching
- Exhaust hoods, dust collectors, ventilation ducts

### **DESIGN CAPABILITIES**

- CAD drawings, 3D modeling
- Building intelligence modeling (BIM)

### **QA/QC**

- Fabrication/installation of all mechanical and process systems are in full compliance with ASME codes for pressure piping.
- We employ the most specialized welding and mechanical processes in the industry.
- Our quality control experts carry all qualifications for pipe inspections.

To upgrade your assemblies, vessels, or processes, contact our fabrication specialists

M. Davis and Sons was established in 1870 and incorporated in Delaware in 1974. In 2017, M. Davis and Sons acquired VTi, Inc., a Newark, DE-based electrical manufacturer.

Peggy Del Fabbro  
CEO

From small factory retrofits to new plant system installations, M. Davis offers complete construction, fabrication and maintenance capabilities for mechanical, electrical and control systems. Our turnkey solutions for new construction, expansion, maintenance, and capital development enable clients to operate with customized equipment configurations, expertly fabricated to their exacting and unique specifications, and innovative control systems that keep their facilities efficient and safe.

We understand the compliance regulations across industries and adhere to the highest production standards so our customers can focus on their operations with confidence.
