

INDUSTRIAL CONSTRUCTION,  
FABRICATION AND MAINTENANCE

## INDUSTRIAL AUTOMATION AND CONTROLS

Bring greater efficiency to your industrial operation with M. Davis' plant automation services. As a true turnkey system provider, M. Davis designs, assembles, installs/integrates, and maintains advanced process control systems that monitor and control most types of industrial applications and complexities.

### PROCESS CONTROL SYSTEMS

From concept to completion, our team will make sure your control system is built with the right instrumentation and is properly programmed, calibrated, and integrated into your new or existing system.

- PLC/HMI programming
- SCADA
- Wireless communication
- Web-enabled systems

### UL PANEL SHOP – DESIGN/BUILD

We fabricate your custom-made control panels in our own panel shop, providing the utmost in efficiency and quality control.

- Complete layout and design
- UL 508A & 698A panel shop
- Hazardous location-certified
- AutoCAD electrical – schematics, panel layout, bill of materials
- Field installation and startup

### CONTROL SYSTEMS

- Large-scale PLC, DCS system installations
- HMI design capabilities
- Programmable logic controllers

Contact M. Davis for more information about automation and process controls

Projects range from \$1,000 to \$15 million in scope.

Our services are provided by over 400 skilled team members.

We have \$25 million in aggregate bonding capacity.
