

INDUSTRIAL CONSTRUCTION,
FABRICATION AND MAINTENANCE

THE UTMOST INSTRUMENT AND PROCESS ACCURACY
FROM ISA-CERTIFIED TECHNICIANS

INSTRUMENTATION & CALIBRATION

Our ISA-certified technicians have trained and worked in many types of manufacturing facilities across various industries. They understand how to help you maintain the highest level of accuracy possible, and understand the importance of adhering to OSHA safety regulations, NFPA 70E, site-specific regulatory bodies, and M. Davis' in-house safety department.

They'll come to your site or take your equipment to our shop for service to minimize disruption to your operation.

INSTRUMENTATION & CALIBRATION

- Commissioning and decommissioning
- Modify existing systems
- First break/line break capabilities
- Repurpose existing systems/instrumentation
- Electrical thermography inspections for preventive maintenance and diagnostics

M. Davis and Sons was established in 1870 and incorporated in Delaware in 1974. In 2017, M. Davis and Sons acquired VTi, Inc., a Newark, DE-based electrical manufacturer.

Peggy Del Fabbro
CEO

From small factory retrofits to new plant system installations, M. Davis offers complete construction, fabrication and maintenance capabilities for mechanical, electrical and control systems. Our turnkey solutions for new construction, expansion, maintenance, and capital development enable clients to operate with customized equipment configurations, expertly fabricated to their exacting and unique specifications, and innovative control systems that keep their facilities efficient and safe.

We understand the compliance regulations across industries and adhere to the highest production standards so our customers can focus on their operations with confidence.
