

INDUSTRIAL CONSTRUCTION,
FABRICATION AND MAINTENANCE

ONE SOURCE FOR ALL INDUSTRIAL CONSTRUCTION, FABRICATION, AND MAINTENANCE

Today’s industrial environments demand the utmost design precision, fail-safe machining, and flawless installation. Manufacturers and other plant operators need the assurance that equipment maintenance or installation won’t cause prolonged downtime. And, they want the convenience of procuring a range of trades from a single source—M. Davis and Sons.

We’re a fifth-generation national leader in the design, manufacture, and installation of industrial plants, facilities, and processes for companies in FDA-regulated sectors, industrial sectors, and those requiring expert fabrication.

OUR SPECIALTIES

- Mechanical
- Electrical
- Fabrication
- Engineering

OUR MARKETS

- Food and Beverage
- Renewable Energy
- Chemical
- Oil and Gas
- Government
- Pharmaceutical

OUR FACILITIES

Over 175,000 square feet of space combined between four fabrication shops located in DE, PA, and MD, serviced by over \$3 million of state of the art equipment.

VTi BY M. DAVIS

In 2017, M. Davis and Sons acquired VTi, Inc., adding power distribution equipment to our offerings. Based in Newark, DE, VTi has a 30-year history specializing in customized industrial control and power distribution equipment.

Projects range from \$1,000 to \$15 million in scope.

Our services are provided by over 400 skilled team members.

We have \$25 million in aggregate bonding capacity.

M. Davis and Sons was established in 1870 and incorporated in Delaware in 1974. In 2017, M. Davis and Sons acquired VTi, Inc., a Newark, DE-based electrical manufacturer.

Peggy Del Fabbro
CEO

From small factory retrofits to new plant system installations, M. Davis offers complete construction, fabrication and maintenance capabilities for mechanical, electrical and control systems. Our turnkey solutions for new construction, expansion, maintenance, and capital development enable clients to operate with customized equipment configurations, expertly fabricated to their exacting and unique specifications, and innovative control systems that keep their facilities efficient and safe.

We understand the compliance regulations across industries and adhere to the highest production standards so our customers can focus on their operations with confidence.
