

INDUSTRIAL CONSTRUCTION,
FABRICATION AND MAINTENANCE

MECHANICAL SERVICES

Each mechanical project is handled with attention to detail, quality and safety. We manage each customer's project to the highest standards to ensure that the schedule is met, within budget, according to all necessary quality and safety regulations.

Our millwrights are true craftsmen, our pipefitters' skills are broad, and our rigging has met the challenge of many large-scale, complex jobs. We also have certified welding inspectors on staff to maintain the utmost quality control for our projects.

M. Davis and Sons was established in 1870 and incorporated in Delaware in 1974. In 2017, M. Davis and Sons acquired VTi, Inc., a Newark, DE-based electrical manufacturer.

Peggy Del Fabbro
CEO

From small factory retrofits to new plant system installations, M. Davis offers complete construction, fabrication and maintenance capabilities for mechanical, electrical and control systems. Our turnkey solutions for new construction, expansion, maintenance, and capital development enable clients to operate with customized equipment configurations, expertly fabricated to their exacting and unique specifications, and innovative control systems that keep their facilities efficient and safe.

We understand the compliance regulations across industries and adhere to the highest production standards so our customers can focus on their operations with confidence.
