

INDUSTRIAL CONSTRUCTION,
FABRICATION AND MAINTENANCE

FABRICATION, INSTALLATION, AND TESTING FOR HEAVY INDUSTRY,
ENERGY, AND FDA-REGULATED FACILITIES

PROCESS PIPING

M. Davis' highly skilled process piping experts will fabricate, install, maintain, and repair your system in compliance with cGMP (Current Good Manufacturing Practices), FDA, and industry and OSHA regulations—without shutting down your plant for an expensive or extensive length of time. We can bring in a large skilled team to troubleshoot, test lines, and perform expert emergency repairs to your specifications, on piping of all sizes.

PROCESS PIPING

- Orbitally welded piping up to 4"
- ASME BPE standards to install sanitary piping
- Field layout, isometrics
- 3D Modeling and BIM Capabilities
- Spool piece fabrication

PROCESS SYSTEMS INSTALLATION

- WFI
- Clean steam
- Clean in Place (CIP) and Steam in Place (SIP)
- Reverse osmosis (RO), deionized water (DI)
- Aseptic product lines

ON-SITE TESTING

- Hydro and pneumatic testing
- X-ray and shear wave
- Heat tracing
- Boroscoping

For fabrication and installation to your exacting specs and regulatory compliance, contact M. Davis

Projects range from \$1,000 to \$15 million in scope.

Our services are provided by over 400 skilled team members.

We have \$25 million in aggregate bonding capacity.

M. Davis and Sons was established in 1870 and incorporated in Delaware in 1974. In 2017, M. Davis and Sons acquired VTi, Inc., a Newark, DE-based electrical manufacturer.

Peggy Del Fabbro
CEO

From small factory retrofits to new plant system installations, M. Davis offers complete construction, fabrication and maintenance capabilities for mechanical, electrical and control systems. Our turnkey solutions for new construction, expansion, maintenance, and capital development enable clients to operate with customized equipment configurations, expertly fabricated to their exacting and unique specifications, and innovative control systems that keep their facilities efficient and safe.

We understand the compliance regulations across industries and adhere to the highest production standards so our customers can focus on their operations with confidence.
