

INDUSTRIAL CONSTRUCTION,
FABRICATION AND MAINTENANCE

CERTIFIED WELDERS FOR ANY PROCESS,
WORKING AT THE HIGHEST STANDARDS

WELDING

M. Davis' multi-craft welders are the best trained in the business, able to perform under unusual circumstances and environments. They hold welding certifications in a multitude of processes, with almost any material, and all meet our rigorous quality control qualifications.

EXTENSIVE WELDING PROGRAM

- Over 100 ASME, API, and AWS procedures
- ASME Code Section VIII fabrication in field or shop
- ASME Section IX
- API
- SMAW, FCAW, GMAW, GTAW processes

WELDING SERVICES

- Pipe welding
- Orbital welding
- Carbon, stainless, aluminum
- Repairs of vessels, tanks, and boilers
- Exotic alloys including chrome alloys, Inconel®, Monel®, Hastelloy®

QA/QC FOR EVERY WELD

All of our welders are qualified through our ASME Code Shop. We also employ our own certified welding inspectors to ensure that everything we fabricate, install, and maintain has our quality assurance guarantee. This includes radiographic testing and post-weld heat treatment as deemed necessary. This includes all forms of NDE testing.

Contact M. Davis for more information about our welding services

Projects range from \$1,000
to \$15 million in scope.

Our services are provided by
over 400 skilled team members.

We have \$25 million in
aggregate bonding capacity.

M. Davis and Sons was established in 1870 and incorporated in Delaware in 1974. In 2017, M. Davis and Sons acquired VTi, Inc., a Newark, DE-based electrical manufacturer.

Peggy Del Fabbro
CEO

From small factory retrofits to new plant system installations, M. Davis offers complete construction, fabrication and maintenance capabilities for mechanical, electrical and control systems. Our turnkey solutions for new construction, expansion, maintenance, and capital development enable clients to operate with customized equipment configurations, expertly fabricated to their exacting and unique specifications, and innovative control systems that keep their facilities efficient and safe.

We understand the compliance regulations across industries and adhere to the highest production standards so our customers can focus on their operations with confidence.
